CM-CIC Securities sharpens its focus in London

CM-CIC Securities has added two experienced professionals to its London branch to expand the team covering European Special Situations.

Alim Mawani joins CM-CIC Securities Equity Sales from Barclays where he was a Desk Analyst covering European and Asia-Pacific Special Situations. Previously Alim worked at Hanover Investors and at Credit Suisse in Investment Banking and Private Equity. Alim holds an HBA and MBA from the Richard Ivey School of Business.

Jeremy Grant will be employed as a Legal Analyst. Previously he worked for JP Morgan in Corporate Finance and Equity Research and was Executive Director of the Centre for Corporate Governance at London Business School. He holds degrees in Law and Management from the London School of Economics and has a PhD in Finance from Cambridge University.

“The hires will consolidate our offering to hedge funds and absolute return clients. They will also support CM-CIC Securities’ large client base of global institutional investors, providing strategic advice on maximising the value of their holdings in complex corporate transactions across Western Europe” says Renaud Berenguier, Global Head of Equity Sales.

Products include Morning News Notes, a Weekly Operations Digest which tracks mergers and acquisitions, complex corporate restructurings and other corporate actions. The team also provides in depth research reports on the financial and legal aspects of specific transactions.

This reflects our determination to transform the brokerage activity, which will now focus on providing higher value added research through value stock picking, growth stock picking, SRI and Special Situations.
